EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Terry Stratman on April 28, 2004.

The application has been amended as follows:

In claim 1, line 3, "for" has been deleted.

In claim 1, line 6, "for cooperation therewith and with" has been deleted and -- being attached thereto and to-- has been inserted before "the".

In claim 1, line 13, "for" has been deleted.

In claim 7, line 1, "5" has been deleted and --1-- has been inserted after "claim".

In claim 8, line 3, "for" has been deleted.

In claim 8, line 6, "for cooperation therewith and with" has been deleted and -- being attached thereto and to-- has been inserted before "the".

Claims 14-25 have been canceled.

The following is an examiner's statement of reasons for allowance: by defining the compartment as being a space bounded by the peripheral wall structure and bottom wall, by defining the partition as a structure extending across and joining opposed

portions of the peripheral wall structure and attached to the bottom wall and by positively defining the lock assembly in relationship with the tray and partition, the independent claims are patentability distinguished over British reference 2,310,996 and German reference 306,531 (as well as the remaining pieces of cited prior art).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The information disclosure statement filed July 16, 2002 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. The information referred to therein has not been considered; however, in order to advance prosecution, the examiner has cited these references on a PTO 892 form.
